

Mount Thorley Operations 2014

2

Environmental Impact Statement

Prepared for Mt Thorley Operations Pty Limited | June 2014

VOLUME 2 — Appendices A to F

**COAL
&
ALLIED**

Managed by Rio Tinto Coal Australia

EMM
EMGA Mitchell McLennan

VOLUME 1 — MAIN REPORT

Executive Summary

- Chapter 1 Context
- Chapter 2 The proposal
- Chapter 3 Proposal need
- Chapter 4 The applicant and assessment requirements
- Chapter 5 Existing operations
- Chapter 6 Legislative considerations
- Chapter 7 Stakeholder engagement
- Chapter 8 Economics
- Chapter 9 Noise and vibration
- Chapter 10 Air quality and greenhouse gas
- Chapter 11 Ecology
- Chapter 12 Final landform and rehabilitation
- Chapter 13 Land and soils capability
- Chapter 14 Visual amenity
- Chapter 15 Groundwater
- Chapter 16 Surface water
- Chapter 17 Aboriginal cultural heritage
- Chapter 18 Historic heritage
- Chapter 19 Traffic and transport
- Chapter 20 Social assessment
- Chapter 21 Environmental management and commitments
- Chapter 22 Alternatives
- Chapter 23 Justification and conclusion

Abbreviations

References

VOLUME 2 — Appendices A to F

- Appendix A Schedule of land
- Appendix B Study team
- Appendix C Surrounding residences and assessment locations
- Appendix D Secretary's requirements
- Appendix E Economic study
- Appendix F Noise and vibration study

VOLUME 3 — Appendices G to J

- Appendix G Air quality and greenhouse gas study
- Appendix H Visual amenity study
- Appendix I Groundwater study
- Appendix J Surface water study

VOLUME 4 — Appendices K to L

- Appendix K Aboriginal cultural heritage study
- Appendix L Traffic and transport study

VOLUME 5 — Appendices M to O

- Appendix M Social impact assessment
- Appendix N Rehabilitation performance/completion criteria
- Appendix O Waste management strategy information

Mr Mark Nolan
Principal Advisor Project Approvals NSW
Health, Safety, Environment and Communities
Rio Tinto
PO Box 315
SINGLETON NSW 2330

Dear Mr Nolan

**State Significant Development - Secretary's Requirements
Mt Thorley Continuation Project (SSD 6465)**

I have attached the Secretary's requirements for the preparation of an Environmental Impact Statement (EIS) for the Mt Thorley Continuation Project.

These requirements are based on the information you have provided to date, and have been prepared in consultation with the relevant government agencies. The agencies' comments are attached for your information (see Attachment 2).

Please note that the Department may alter these requirements at any time, and that you must consult further with the Department if you do not lodge a development application and EIS for the project within the next two years.

Please contact the Department at least two weeks before you plan to submit the development application and EIS for the project. This will enable the Department to:

- confirm the applicable fee (see Division 1AA, Part 15 of the *Environmental Planning and Assessment Regulation 2000*); and
- determine the number of copies (hard-copy and CD-ROM) of the EIS required.

It is important for you to recognise that the Department will review the EIS for the project carefully before putting it on public exhibition, and require you to submit an amended EIS if it fails to adequately address these requirements.

Yours sincerely

David Kitto
Director
Mining Projects
As delegate of the Secretary

Secretary's Environmental Assessment Requirements

State Significant Development

Section 78A(8A) of the *Environmental Planning and Assessment Act 1979*

Application Number	SSD 6465
Proposal	<p>The Mt Thorley Continuation Project, which includes:</p> <ul style="list-style-type: none">• the continuation of existing and approved development on site;• maintaining maximum coal extraction rates at 10 million tonnes of run of mine coal a year;• receiving coal, tailings and overburden from the Warkworth mine;• receiving overburden from the Bulga mine;• water sharing with other mines;• minor infrastructure upgrades; and• progressively rehabilitating the site.
Location	Approximately 15 km southwest of Singleton
Applicant	Mount Thorley Joint Venture
Date of Issue	22 May 2014
General Requirements	<p>The Environmental Impact Statement (EIS) for the development must comply with the requirements in Clauses 6 and 7 of Schedule 2 of the <i>Environmental Planning and Assessment Regulation 2000</i>.</p> <p>In particular, the EIS must include:</p> <ul style="list-style-type: none">• a full description of the development, including:<ul style="list-style-type: none">– the resource to be extracted, demonstrating efficient resource recovery within environmental constraints;– the mine layout and scheduling;– minerals processing;– a waste (overburden, tailings, etc.) management strategy, dealing with the EPA's requirements (see Attachment 2);– a water management strategy, dealing with the EPA's and NSW Trade and Investment's requirements (see Attachment 2);– a rehabilitation strategy, dealing with NSW Trade and Investment's requirements (see Attachment 2); and– the likely interactions between the development and any other existing, approved or proposed mining development in the vicinity of the site;• a list of any approvals that must be obtained before the development may commence;• an assessment of the likely impacts of the development on the environment, focussing on the specific issues identified below, including:<ul style="list-style-type: none">– a description of the existing environment likely to be affected by the development, <u>using sufficient baseline data</u>;– an assessment of the likely impacts of all stages of the development, including any cumulative impacts, taking into consideration any relevant laws, environmental planning instruments, guidelines, policies, plans and industry codes of practice;– a description of the measures that would be implemented to mitigate and/or offset the likely impacts of the development, and an assessment of:<ul style="list-style-type: none">○ whether these measures are consistent with industry best practice, and represent the full range of reasonable and feasible mitigation measures that could be implemented;○ the likely effectiveness of these measures; and○ whether contingency plans would be necessary to manage any

	<p>residual risks;</p> <ul style="list-style-type: none"> - a description of the measures that would be implemented to monitor and report on the environmental performance of the development if it is approved; • a consolidated summary of all the proposed environmental management and monitoring measures, identifying all the commitments in the EIS; • consideration of the development against all relevant environmental planning instruments (including Part 3 of the <i>State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007</i>); and • the reasons why the development should be approved having regard to biophysical, economic and social considerations, including the principles of ecologically sustainable development. <p>While not exhaustive, Attachment 1 contains a list of some of the environmental planning instruments, guidelines, policies, and plans that may be relevant to the environmental assessment of this development.</p> <p>In addition to the matters set out in Schedule 1 of the <i>Environmental Planning and Assessment Regulation 2000</i>, the development application must be accompanied by a signed report from a suitably qualified expert that includes an accurate estimate of the:</p> <ul style="list-style-type: none"> • capital investment value (as defined in Clause 3 of the <i>Environmental Planning and Assessment Regulation 2000</i>) of the development, including details of all the assumptions and components from which the capital investment value calculation is derived; and • jobs that would be created during each stage of the development.
<p>Specific Issues</p>	<p>The EIS must address the following specific issues:</p> <ul style="list-style-type: none"> • Noise & Blasting – including: <ul style="list-style-type: none"> - an assessment of the likely operational noise impacts of the development (including construction noise) under the <i>NSW Industrial Noise Policy</i>, paying particular attention to establishing accurate background noise levels in the surrounding area and the obligations in chapters 8 and 9 of the policy; - if a claim is made for specific construction noise criteria for certain activities, then this claim must be justified and accompanied by an assessment of the likely construction noise impacts of these activities under the <i>Interim Construction Noise Guideline</i>; - an assessment of the likely road noise impacts of the development under the <i>NSW Road Noise Policy</i>; and - an assessment of the likely blasting impacts of the development on people, animals, buildings, infrastructure, and significant natural features, having regard to the relevant ANZEC guidelines; • Air – including: <ul style="list-style-type: none"> - an assessment of the likely air quality impacts of the development in accordance with the <i>Approved Methods for the Modelling and Assessment of Air Pollutants in NSW</i> and the EPA's additional requirements (see Attachment 2); and - an assessment of the likely greenhouse gas impacts of the development, dealing with the EPA's requirements (see Attachment 2); • Water – including: <ul style="list-style-type: none"> - an assessment of the likely impacts of the development on the quantity and quality of the region's surface and groundwater resources, having regard to the EPA's and NSW Trade and Investment's requirements (see Attachment 2); - an assessment of the likely impacts of the development on aquifers, watercourses, riparian land, water-related infrastructure, and other water users; and - an assessment of the likely flooding impacts of the development; • Land – including: <ul style="list-style-type: none"> - an assessment of the likely impacts of the development on the soils,

	<p>land capability, and landforms (topography) of the site; and</p> <ul style="list-style-type: none"> - an assessment of the compatibility of the development with other land uses in the vicinity of the development in accordance with the requirements in Clause 12 of <i>State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007</i>; • Traffic – including an assessment of the likely traffic impacts of the development on the capacity, condition, safety and efficiency of the local and State road network; • Visual – including an assessment of the likely visual impacts of the development on private landowners in the vicinity of the development and key vantage points in the public domain, the creation of new landforms (overburden dumps, bunds, etc.), and minimising the lighting impacts of the development; • Biodiversity – ongoing management of approved impacts on biodiversity; • Heritage – ongoing management of approved impacts on Aboriginal and historic heritage (cultural and archaeological); • Public Safety – including an assessment of the likely risks to public safety off-site, paying particular attention to bushfire risks and the handling and use of any dangerous goods; • Social & Economic – including: <ul style="list-style-type: none"> - an assessment of the likely social impacts of the development (including perceived impacts), paying particular attention to any impacts on Bulga village; and - an assessment of the likely economic impacts of the development, and paying particular attention to: <ul style="list-style-type: none"> ○ the significance of the resource; ○ economic benefits of the project for the State and region; and ○ the demand for the provision of local infrastructure and services.
Consultation	<p>During the preparation of the EIS, you must consult with relevant local, State or Commonwealth Government authorities, service providers, community groups and affected landowners.</p> <p>The EIS must describe the consultation that was carried out, identify the issues raised during this consultation, and explain how these issues have been addressed in the EIS.</p>

	Interim Construction Noise Guideline (EPA)
	Technical basis for guidelines to minimise annoyance due to blasting overpressure and ground vibration (ANZEC)
Air	
	Approved Methods for the Modelling and Assessment of Air Pollutants in NSW (EPA)
	Approved Methods for the Sampling and Analysis of Air Pollutants in NSW (EPA)
	Coal Mine Particulate Matter Control Best Practice – Site Specific Determination Guideline (EPA)
	Generic Guidance and Optimum Model Settings for the CALPUFF Modelling System for Inclusion in the Approved Methods for the Modelling and Assessment of Air Pollutants in NSW (EPA)
	National Greenhouse Accounts Factors (Commonwealth)
Water	
Water Sharing Plans	Hunter Unregulated and Alluvial Water Sources 2009
	Hunter Regulated River Water Source 2003
Groundwater	NSW State Groundwater Policy Framework Document (NOW)
	NSW State Groundwater Quality Protection Policy (NOW)
	NSW State Groundwater Quantity Management Policy (NOW)
	NSW Aquifer Interference Policy 2012 (NOW)
	Australian Groundwater Modelling Guidelines 2012 (Commonwealth)
	National Water Quality Management Strategy Guidelines for Groundwater Protection in Australia (ARMCANZ/ANZECC)
	Guidelines for the Assessment & Management of Groundwater Contamination (EPA)
Surface Water	NSW Government Water Quality and River Flow Objectives (EPA)
	Using the ANZECC Guideline and Water Quality Objectives in NSW (EPA)
	National Water Quality Management Strategy: Australian Guidelines for Fresh and Marine Water Quality (ANZECC/ARMCANZ)
	National Water Quality Management Strategy: Australian Guidelines for Water Quality Monitoring and Reporting (ANZECC/ARMCANZ)
	National Water Quality Management Strategy: Guidelines for Sewerage Systems – Effluent Management (ARMCANZ/ANZECC)
	National Water Quality Management Strategy: Guidelines for Sewerage Systems – Use of Reclaimed Water (ARMCANZ/ANZECC)
	Hunter River Salinity Trading Scheme (EPA)
	Approved Methods for the Sampling and Analysis of Water Pollutants in NSW (EPA)
	Managing Urban Stormwater: Soils & Construction (Landcom) and associated Volume 2E: Mines and Quarries (DECC)
	Managing Urban Stormwater: Treatment Techniques (EPA)
	Managing Urban Stormwater: Source Control (EPA)
	Technical Guidelines: Bunding & Spill Management (EPA)
	Environmental Guidelines: Use of Effluent by Irrigation (EPA)
A Rehabilitation Manual for Australian Streams (LWRRDC and CRCCH)	
NSW Guidelines for Controlled Activities (NOW)	
Flooding	Floodplain Development Manual (OEH)
	Floodplain Risk Management Guideline (OEH)

Land	<p>Agfact AC25: Agricultural Land Classification (NSW Agriculture)</p> <p>State Environmental Planning Policy No. 55 – Remediation of Land</p> <p>Australian and New Zealand Guidelines for the Assessment and Management of Contaminated Sites (ANZECC)</p>
