

The Ralph Snowball Archive

Glass Negative Box Lids (with Inscriptions)

RALPH SNOWBALL - LAMBTON N.S.W. - PORTRAIT, LANDSCAPE & ARCHITECTURAL PHOTOGRAPHER – GLASS PLATE BOX LIDS

Glass Plate Box Lids - (A8900) These lids containing annotations in ink, and pencil, presumably in Ralph Snowball's hand, include his record of his work in the field. They include the box number, number of plates used and details of subject and place and date. They provide great clues in the identification of some of the photographs, as they are a chronological record of his actual location work.

A8900 Annotated Glass Plate Box Lids, 1885-1897. Annotation in ink, presumably in Ralph Snowball's hand includes Box Number, Date, number of plates used and details of subject, place and date.

A8901 Annotated Glass Plate Box Lids, 1898 - 1912. Annotation in ink, presumably in Ralph Snowball's hand includes Box Number, Date, number of plates used and details of subject, place and date.

2023 Update: All surviving glass negative box lids were arranged in chronological sequence and all transcriptions checked. If anyone has any better identifications, please send them through.
